Join The Children's Fund Donation Challenge—Two Prizes to Be Won!

We invite your business to participate in a friendly community competition benefiting The Greater Lakes Region Children's Fund.

From November 1st through December 4th, local businesses will compete to collect the most item donations. More importantly, this campaign gives our community an opportunity to come together, spread kindness, and help local children and families who need our support most.

Together, we can make a meaningful difference. By inviting your customers, employees, friends, and family to participate, your business can help turn generosity into real support.

How the Contest Works

There are two opportunities to win:

🏆 **Contest #1: First Location to Completely Fill The Box**

🏆 **Contest #2: Most Total Donation Items Collected**

Winners will receive a live television appearance during The Children's Fund Auction, featuring members of your team, along with a press release article submitted to the Laconia Daily Sun recognizing your team's generous support. You will also be featured on our blog and our social media channels.

This publicity offers an excellent opportunity to showcase your business, celebrate your team's community involvement, and receive recognition for supporting The Children's Fund. Most importantly, your participation will help create a stronger, more caring community where children and families know they are not alone.

How to Participate

Simply display your donation box at your business and encourage customers, employees, friends, and family to contribute. Every donation makes a difference. Each contribution helps advance the mission of The Children's Fund and provides hope and support to children in our community.

Thank you for your participation in this important fundraiser. We deeply appreciate your generosity, compassion, and commitment to our community. We look forward to seeing local businesses come together to support The Children's Fund and make this season brighter for local children and families in need.

Sincerely,

Jennifer Kelley
Executive Director
Greater Lakes Region Children's Fund
